

LED Flood Light 10W / 20W / 30W

Electrical	
Input Voltage	AC 100-240V
Frequency	
Power Factor	
Bulb Type	LED Flood
Optical	
Color Temperature	
Lumens	900 / 1800 / 2700
CRI	>80
Beam Angle	
Mechanical	
Wattages	10W, 20W, 30W
Bulb Shape	
Base Type	
Temperature Range	-40C to +55C
Material	Aluminum and Toughened Glass
Lifespan	40,000 hours
Warranty	3 years
Size	
Dimensions	115x87x89mm / 180x140x100mm / 225x185x130mm
Net Weight	*/ 1.25kg / 2.59kg
Certificates	
Certificates	cSA RoHS CE FCC Compliant
SKU	
10W	SX-FL-10
20W	SX-FL-20
30W	SX-FL-30

LED Floodlights are the modern choice for lighting of various large areas such as parking lots, open and closed working sites, as well as for decorative lighting for buildings.

The main benefit of LED Floodlights is their energy saving feature, crucial for the cases when the light must be kept on for the whole night.

LED Floodlights are up to 10 times more economical than the older halogen floodlights, therefore, the investment made for their purchase will normally be paid back within 1 year. LED Floodlights have a lifetime greater than 5 times that of the older halogen floodlights.

The LED Floodlights have a high level of IP 65 protection, which allows for their use in various weather conditions on a warehouse, stadium, dock, landscape lighting, stage, building, billboard, etc.
