

T5 Retrofit LED Tube	
Replaces	28-35w T5 Florescent Tube
Electrical	
Input Voltage	AC 95-265V
Frequency	50-60Hz
Power Factor	
Bulb Type	LED tube, Frosted Lens
Optical	
Color Temperature	4100K
Lumens	2005
CRI	>81
Beam Angle	120°
Mechanical	
Wattage	16W
Bulb Shape	T5 Series LED Retrofit
Base Type	
Temperature Range	
Material	
Lifespan	50,000 hours
Warranty	5 years
Size	
Dimensions	4' / 120mm
Net Weight	
Certificates	
Certificates	cUL cETL RoHS CE FCC Compliant
SKU	
SKU	SX-T5-4-14

T-5 LED Tubes are an ideal replacement and have many advantages over Fluorescent Tubes. LED based light source, are environmentally friendly and much longer lasting than Fluorescent Tubes with a minimum of 8 to 10 years compared to 2 years with Fluorescent Tubes. (This is based on an average of 4000 hours usage per year or about 11 hours a day at ≤ 77 °F)

T5 LED Tubes are high-power, high-brightness, high-efficiency, thus providing a substantial energy saving.

T5 LED Tubes have a longer life than incandescent or CFL electric lights. T5 LED Tubes are green, contain no mercury, lead, or other harmful elements, and will not produce electromagnetic interference.

T5 LED Tubes emit pure light color and have a high color rendering index.

T5 LED Tubes do not emit ultraviolet or infrared light, nor produce harmful radiation.
