

Wall Pack 16W / 25W

Replaces 70W / 75W MH/HPS

Electrical

Input Voltage 100-277v

Frequency

Power Factor

Bulb Type LED

Optical

Color Temperature 3000k / 5500k / 6000k

Lumens 1650 / 2380

CRI >80

Beam Angle 120°

Mechanical

Wattages 16W, 25W

Bulb Shape A19, S15

Base Type E27 / E26 / E14 / B22

Temperature Range -40 to +45 degrees Celsius

Material aluminum die-casting

Lifespan 50,000 hours

Warranty 5 years

Size

Dimensions 11 x 6.8 x 6.4" / 12.7 x 7.6 x 5.5"

Net Weight 3.8 kg

Certificates

Certificates cUL/UL/DLC/ROHS/CE/FCC Compliant

SKU

16W SX-WP-16

25W SX- WP-25

LED wall pack fixtures save money on electricity and maintenance costs. Easily replace current metal halide (MH) HID, high pressure sodium (HPS), or mercury vapor (MV) fixtures with these new wall packs. Not only will typical energy usage and electric bills be cut by over 50%, the area surrounding the wall packs will be brightened up. New wall packs not only save energy, but have an extremely long lamp life which eliminates maintenance costs. They also put out a more natural white daylight type color that allows us to see better. Since they run cool, there is no discoloration of the lens over time.
